

- 14596 Research and develop documentation for health and safety and injury prevention on construction sites
- 14597 Review an organisation's health and safety performance on construction sites
- 14598 Explain the reason for health and safety management documentation on construction sites
- 14599 Produce a site specific safety plan and strategy for implementation on construction sites
- 14600 Research and develop hazard identification and management compliance methods on construction sites
- 14601 Plan for an on site health and safety compliance audit on a construction site
- 14602 Research and develop accident and incident investigation procedures on construction sites
- 14603 Develop an on site emergency response plan and implementation strategy on construction sites
- 14604 Develop a strategy to coordinate health and safety information and activity on construction sites
- 14605 Implement on site hazard identification and hazard management on construction sites
- 14606 Conduct and report an on site accident and incident investigation on a construction site
- 14607 Implement and report an on site emergency response on a construction site
- 14608 Conduct an on site health and safety compliance audit on a construction site
- 14609 Describe risk factors that contribute to injury on construction sites
- 14610 Describe strategies for preventing injury on construction sites
- 14611 Prevent hazards associated with excavation and traffic control on construction sites
- 14612 Prevent hazards associated with working with scaffolding and false work on construction sites
- 14613 Prevent hazards when working with cranes, lifting appliances and rigging on construction sites
- 14614 Prevent hazards associated with demolition on construction sites
- 14615 Prevent hazards associated with working with hazardous and toxic substances on construction sites
- 14616 Prevent hazards associated with working with plant on construction sites
- 14665 Apply and assess strategies for reducing risks and preventing injury on construction sites
- 15757 Employ fall arrest systems on building and construction sites
